AMENDMENTS

AMENDMENTS TO THE CLAIMS

1.-12.(Canceled)

13. (Previously Presented) A system for synchronously delivering complementary data through a network, the system comprising:

a control unit;

a first device connected to the control unit through the network; and

a second device connected to the control unit through the network, wherein the control unit synchronously delivers complementary data to the first device and the second device,

wherein the first device is a vehicle navigation system and wherein the complementary data includes navigational video data delivered to the first device and supplementary data delivered to the second device.

14. (Original) The system of claim 13 wherein the supplementary data is audio data.

15. (Previously Presented) A system for synchronously delivering complementary data through a network, the system comprising:

a control unit;

a first device connected to the control unit through the network; and

a second device connected to the control unit through the network, wherein the control unit synchronously delivers complementary data to the first device and the second device,

wherein the first device is a video monitor and wherein the complementary data includes video data delivered to the first device and subtitles delivered to the second device.

16.-38. (Canceled)
